I'm having a great experience here as I'm getting a lot of things to learn and experience. Our college also conducts guest lectures, in that we come to know about a lot of things we were never aware of. Recently, we got an opportunity to do a live project in Reliance and there we had a tremendous amount of knowledge about marketing. We learn a lot of new things like what FIFO means. The most important thing is how to influence customers with communication skill to buy a certain product. These things helped me a lot to gain confidence while talking to other people. At the end I would like to say that I'm happy to be part of this institution and looking forward to take more opportunities.
