TRAINING & PLACEMENT

MESSAGE FROM FOUNDER CHAIRMAN

Dear Students,

The training & placement cell is an integral part of the Institute with an active role in career services for students. Placement season is always an exciting period. Most students would like to get a job immediately after their studies. Professional competency is not enough for getting the job. The need of the industry is that the student should have a good personality, good academic competency, ability to express clearly, ability to use technology as a tool, good attitude, excellent communication skills, leadership skills and willing to work in a team. We strive to achieve this by giving training to the students, constant interaction with the industries through guest lectures, applied sessions, internships, industry visits, on-campus, off-campus and pool campus placement initiatives.

Many of our students are uncertain about which path to choose after post-graduation. The Training and Placement Cell plays an important role in guiding the students about their path, which in turn results in identifying the students who are aiming for higher education, budding entrepreneurs and those who are aiming to secure a job after post-graduation.

We expect our students to be mindful, quick learners and multitasker to absorb & accumulate relevant knowledge in this two-year journey of MBA. Apart from studies, your talents are nurtured and flourished here as well. Live projects, business events, cultural events, personal mentoring have been eye-catching aspects @ AIMS for the students. Rather than making the journey of a pupil stressful to successful, we believe in making it playful to successful.

If you desire to lead from the front, we welcome you to our ever growing family. All the best for your career ahead. Keep Smiling : Keep Rising
